WLAN Specification	Standard: 802,11b/g/n Encryption: WEP / WPA / WPA2 Frequency Rate: 2412 - 2472 MHz Max. Transmitting Power: 802,11b :+18dBm 802,11g:+16dBm 802,11n(20MHz):+14dBm Channel: 1-13

Safety Information

IMPORTANT: Please read and comply with all of the instruction and warnings provided in this manual before using the product. Failure to comply with the instructions and warning provided herein may result in inaccurate results and/or damage to the product itself.

WARNING: DO NOT connect a device that exceeds the power ratings for this power socket. Doing so may overheat or cause possible damage to the device or other equipment.

DO NOT use the power socket if it is damaged in any way, shape or form.

DO NOT attempt to repair, disassemble or modify this device under any circumstances. Doing so may damage the device or cause electric shock and possible injury.

DO NOT place the power socket near any heat source or in direct sunlight.

DO NOT place or operate the power socket in high-humidity environments.

DO NOT operate the power socket if there is a strange odor or heat emitting from the power socket or a connected device, contact customer support immediately.

DO NOT touch any electrical appliances with wet hands or handle appliances near liquids.

Avoid using excessive force when handling the power socket.

Keep the power socket dry and clean it all times.

DO NOT use any solvents or cleaning solutions on the power socket. Clean only with a soft, dry cloth. Never overload electrical circuits as it may cause an electrical shock or fire.

How to connect WIFI?

Step 1: Download & Registration

- Scan the QR Code to download “GM Smart” or search “GM Smart” in Apple Store or Google Play Store to install the app.
- Open the “GM Smart” App, tap “Register” to get an account with your phone number or e-mail. Sign in the App.

Step 2: Add Devices in Easy Mode (Recommend)

- Make sure GM Smart Plug is powered on.
- Make sure your mobile phone is connected to your Wi-Fi.
- Press the power button for more than 5 seconds until the indicator begins to flash quickly (about 2 times/second), this means the device is already for configuration.
- Open your "GM Smart" App, tap "+" on the top right of the App.
- Select device type, tap "confirm indicator rapidly blink". It will fetch the password of the Wi-Fi network your mobile phone is connected to.
- Tap "Confirm" to connect to device, when it appears "successfully added the device", then the connection is completed and your device is listed in your App list.

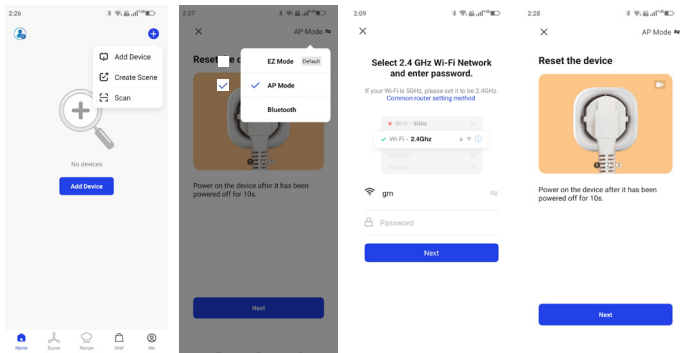

For more information about the product, you can visit the website by scanning the QR code on the right.

Add Devices in AP Mode (If failed in Easy Mode, user could use AP mode)

- Press the power button for more than 5 seconds until the indicator begins to flash quickly, then press it for another 5 seconds until the indicator flashes slowly
- Tap “+” on the top right of the App, select device type
- Tap “AP Mode” on the top right, “confirm indicator slowly blink”. It will fetch the password of the Wi-Fi network your mobile phone is connected to.
- Tap “Confirm” and “Connect Now” to go to the WLAN setting interface in your mobile phone.
- Select the Wi-Fi network named “Smart Life_xxx” to connect it.
- Return to the “GM Smart” App, the connection will start automatically.
- When it appears “Successfully added the device” then the connection is completed and your device is listed in your App list.

Step 3: Control your GM Smart Plug via GM Smart App anytime and anywhere

Make sure your mobile phone and GM Smart Plug are all connected to the network. More functions you will enjoy refer to the App interface.

Step 4: Share your devices with your friend or family after you add your devices successfully.

Quick Guide of using Google Home

Sign in with GM Smart account to add the device, then change the name to an easily recognized word or phrase, like "Bedroom Plug" "Plug1" etc.

Set up Google Home with Google Home App

1. Make sure your Google Home is energized.
2. Open the Google Home app by tapping the app icon on your mobile device.
3. Tap **"ACCEPT"** to agree to the Terms of Service and Privacy Policy. Allow Google Home app to access the device location to discover and set up nearby devices.
4. Tap **"SIGN IN"**, choose one Google account that you already logged in on your mobile device. Or follow the instructions to sign in with a new Google account.
5. The Google Home app scans nearby devices that are energized and are ready to set up. Tap **"SET UP"** to set up your Google Home.
6. When Google Home app is successfully connected to the Google Home device, tap **"PLAY TEST SOUND"**, it will play a test sound to confirm you are connected to the right device. If you heard the test sound, tap **"I HEARD IT"**.
7. Select the Room (ex Living Room) where your Google Home is located. This helps you identify the device when you want to cast to it. Choose the Wi-Fi network you want to connect to your Google Home. To automatically fetch the password for this network on this device, tap **"OK"**, then the password will populate in the password field. You can also manually enter your password. Then tap **"CONTINUE"**.
8. Google Home will now attempt to connect to the provided Wi-Fi network. When Google Home is successfully connected to your Wi-Fi network, tap **"CONTINUE"**.

9. In order for the Google assistant to answer your questions and to enjoy a personalized experience, you must sign into your Google account, then tap **“SIGN UP”**. Choose the Google account you want to link to your Google Home device, then tap **“CONTINUE AS XXX”**. Enter the address where this Google Home is installed, and select your default music service.

10. Tap **“SKIP TUTORIAL”** to finish the setup. You can also tap to watch the Google Home tutorial.

Connect your GM Smart account from Home Control area

Link Smart Life account in Home Control

ATTENTION: Due to the Google Home app's known bug, you could only use one Google account to control "Home Control Action". If you sign in Google Home app with several Google accounts. Control your smart devices through Google Home. Now you can control your smart devices through Google Home. Take Smart Plug as the example, the supported voice commands are as below:

- Ok Google, turn on/off the smart plug .
- Ok Google, turn on the smart plug after 5 mins.
